1. Tells you why it takes courageous lawyers to clean the " System"
2. Tells you why it takes courageous judges to have an open mind and heart to support genuine people, the vulnerable and those with a humanitarian and loving heart.
3. Tells you about why usually lawyers try to evade, escape and not take up matters that really pinch the very soul of human existence.
4. Tells you how influence and pressure groups work.
5. Tells you how lawyers with a humanitarian bent of mind not just fight for justice, but also use their professional skills for charitable work.

If you find lawyers, judges and people who fight for the soul of humanity, love them, support them,

protect them, work with them and help them. Together let's build an inclusive and progressive world for our billion beats.
